PIONEERING DESTRUCTION OF PFAS AND COMPLEX WASTE STREAMS

© 2025 AxNano Inc.

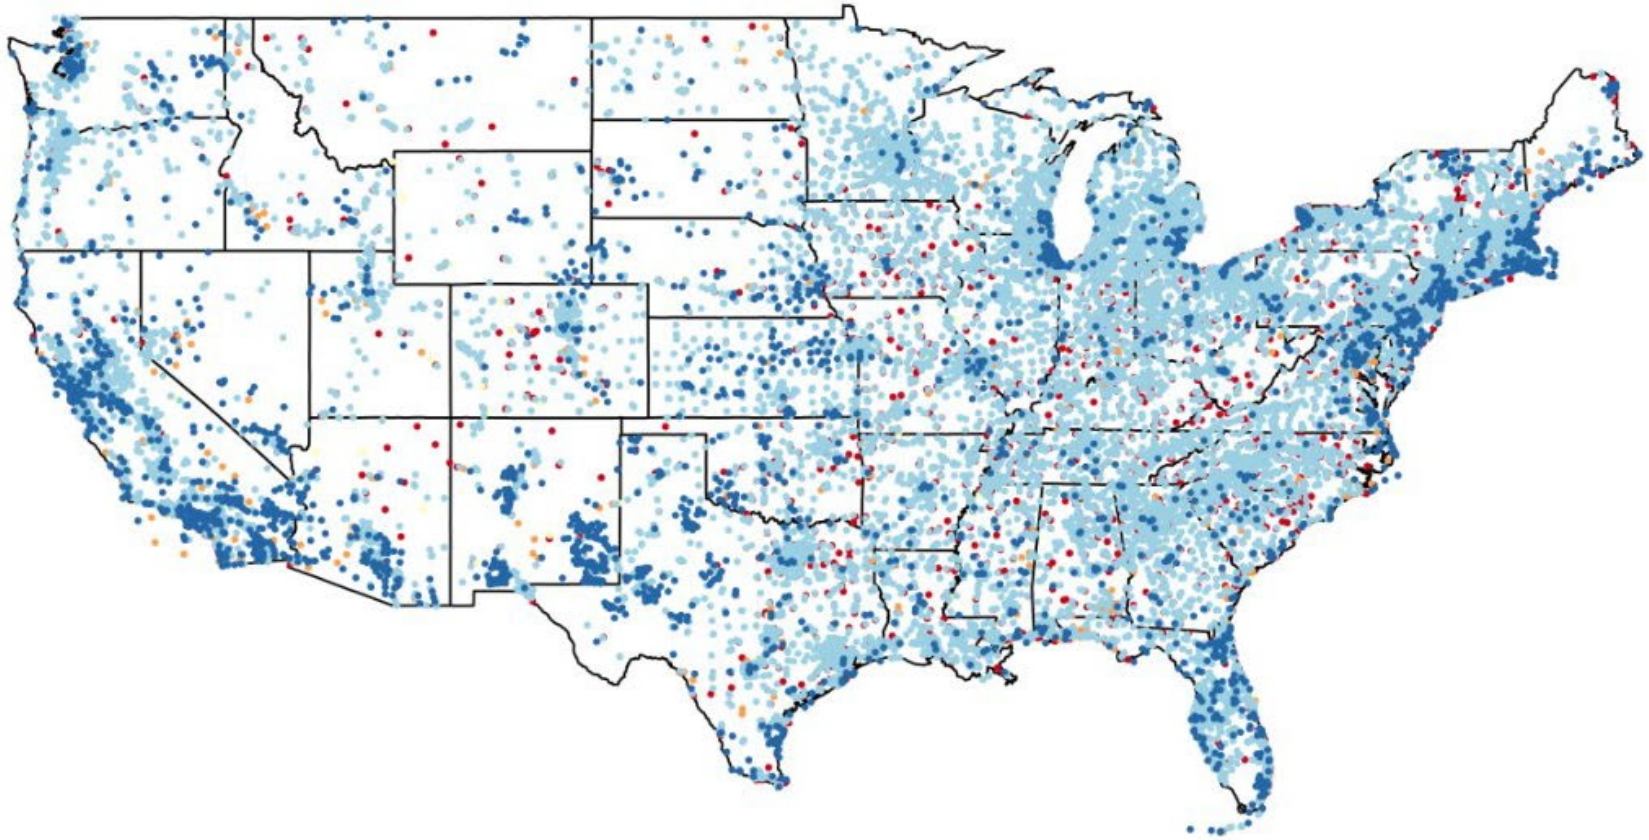
PFAS "FOREVER CHEMICALS"

- 5,000+ chemicals that do not break down
- Endocrine disruptors
- Decreased immune function
- Decreased fertility
- Increased child developmental issues
- Increased cancer risk

© 2025 AxNano Inc.

OVERWHELMING THE WASTE MANAGEMENT INFRASTRUCTURE

- **PFAS**
  - 49,000 industrial sites
  - 3,400 military sites
  - 519 commercial airports



- **1,4-Dioxane**
- **Microplastics**
- **Pharmaceuticals**
- **and more…**

AXNANO OFFERS

- Reduce liability risk
- Eliminate regulatory fines
- Avoid operational disruption
- Assured disposal

PROVEN DESTRUCTION OF COMPLEX WASTE STREAMS BY SCWO

- Pesticides
- Waste paint, oils, and lubricants
- Reverse osmosis reject
- Polychlorinated biphenyls (PCB)
- Organic solvents
- Plastic waste
- Energetic materials
- Fire retardants
- Biosolids

Waste	Influent Total PFAS (ng/L)	[a]Normalized Effluent Total PFAS (ng/L)	Destruction Removal Efficiency
Baseline	-	242 (effluent concentration)	-
GAC	1,115,224	50.4	**99.995%**
Resin	134,112[b]	1,991.3	**98.52%[b]**
Biosolids	4,969.7	62.1	**98.57%**
AFFF wastewater	10,124	414.4	**95.91%**
RO Reject	13,443	45.4	**99.66%**

[a]Normalized to account for effluent dilution from process and quench water added. [b]Starting concentration of PFAS on resins may be inaccurately low

As measured by EPA Method 1633

MARKET OPPORTUNITY

$925M	**TAM: US PFAS Destruction Market** Waste Management, Industrial Chemicals
$305M	**Serviceable Addressable Market** Defense, Oil & Gas, Commercial Airports
$61M	**Serviceable Obtainable Market** High-value, difficult-to-treat wastes

PRICING MODEL

AXNANO

Lease: $80,000/month
Plus operational support costs

REPUBLIC SERVICES

- Sites system
- Secures new customers
- Negotiates contract terms for destruction
- Manages logistics and chain of custody

APOLLO CHEMICAL

CUMBERLAND COUNTY NORTH CAROLINA

CITY OF high point.

AxNano's Mission: Deliver SCWO technology for PFAS and hazardous waste destruction.

- AxNano and General Atomics have a strategic partnership to achieve this mission since 2021

- AxNano Role:
  - Leads pretreatment integration and commercialization.
  - Small business with sole source justification
  - Drives R&D for emerging contaminants.
  - White label GA's units, first rights to units

- General Atomics Role:
  - Provides SCWO reactors and engineering expertise
  - Supports testing and component sourcing
  - Decreases execution risk through decades of build, install, and after-market support

OPPORTUNITY

AxNano will use ImagineH2O accelerator to:

- Access industry relevant investors:
  - Raising $3M Series A in equity
  - Uses of funds:
    - $1.2M marketing
    - $800K business development & sales
    - $500K manufacturing capacity
    - $500K working capital
- Expand beyond PFAS – Using ImagineH2O network in wastewater to access customers (TSDFs) with urgent needs and interest in novel technologies
- Doug Speight, CEO
